

AUSTRALIAN ROBOTICS
CHAMPIONSHIPS

1997

AUSTRALIAN ROBOTICS CHAMPIONSHIPS

When Saturday 29 November 97

Where University of Queensland
Hawken Building

Who All welcome

Events

Stockcar Derby Qualifying starts at 1:30pm.

This is a new competition, which is a world first. Autonomous robotic cars race against each other for speed on a Nascar shaped track.

Sumo Wrestling Match starts at 2:30pm.

Based on real Sumo Wrestling rules, each autonomous robot is required to locate and push, flip, roll, shove, throw, hurl, or otherwise remove the opposing robot from a 1.5m ring in the shortest period of time.

Micromouse Demonstration starts at 3:30pm.

Each autonomous robot (micromouse) must negotiate a unconnected maze from an outside corner to the middle in the shortest possible time without crashing.
